

ASHTRAY SLOPE

The modern, durable and fire-proof SLOPE ashtray is available in three different sizes and with different fastenings.

The own product range of OÜ Weldmet Solution consists of furniture for public spaces. This includes ashtrays and rubbish bins, sorting bins, benches, tables and bicycle holders for indoor and outdoor use.

Our products are durable, modern and fit well with the surroundings; in addition to looking nice, they are also customer-friendly and easily maintained.

In cooperation with our customers, we are constantly creating new products and improving the existing ones. We believe that the best feedback can only come from users.

Our primary customers are homeowners, apartment associations, companies, cities and rural municipalities.

SLOPE 350, 650 and Free

SLOPE ashtrays are made of polished stainless steel, which makes them easy to use and clean. Since they look good, they fit perfectly into any surroundings.

When it comes to maintenance, SLOPE products only require you to grease the lock and hinges a few times a year. SLOPE is fireproof thanks to a specially fitted gas pipe.

SLOPE 350 and 650 are available with fittings for both rubbish bins and walls.
