

## RUBBISH BIN STILE LIBERTY

If you prefer a more robust and larger rubbish bin, STILE LIBERTY is the best option for you. Models are available in three different sizes.

The own product range of OÜ Weldmet Solution consists of furniture for public spaces. This includes ashtrays and rubbish bins, sorting bins, benches, tables and bicycle holders for indoor and outdoor use.

Our products are durable, modern and fit well with the surroundings; in addition to looking nice, they are also customer-friendly and easily maintained.

In cooperation with our customers, we are constantly creating new products and improving the existing ones. We believe that the best feedback can only come from users.

Our primary customers are homeowners, apartment associations, companies, cities and rural municipalities.

### STILE LIBERTY 60, 120 and 200 L

The shape, design and solid look of the STILE LIBERTY rubbish bin reminds one of European architecture between the two centuries, while being modern and trendy at the same time.

STILE LIBERTY rubbish bins are available in three different sizes, in stainless steel and common steel. The surface of the stainless steel model has been brushed with GRID 240 and the standard colour of the painted model is grey RAL 7046. Other RAL colours are also available upon request.

All STILE LIBERTY models are fitted with a zinc-coated inner bin for the bin liner, which facilitates cleaning.

This model can also be ordered with a concrete base, which will stand firm even during storms. Recommended maintenance includes greasing the hinges and lock once or twice a year. This model can also be fitted with the SLOPE ashtray.
